A Note from the Entertainment Director

The Renaissance era is that period in time when man saw a rebirth - a strengthening and broadening - of the arts. Actors, clowns, singers, mimes, dancers, and musicians traveled together from one receptive audience to another, sharpening their skills.

In this modern day of television, film, and professional stage entertainment, it is often difficult for young performers to find the space and audience that their growing talents require. This is one of the reasons that King Richard's Faire affords such a rare opportunity. Here the performers interact with one another, getting valuable direction and feedback from other performers as well as from the very responsive audience. In this setting performers are able to, indeed, they are encouraged to, work and re-work and experiment with their imagination in order to reach the limits of their talent. Please join us for this exciting and rewarding new Renaissance.

—John Mills

INFORMATION?

All citizens of the realm desiring information about King Richard's Faire, looking for lost friends and/or children, or seeking directions should consult the Informistress at the main entrance. The Informistress will gladly show you where to sign to receive King Richard's quarterly newsletter, how to purchase King Richard's T-shirts and provide contract and lease information for interested artists and craftsmen for next year's Faire.

THE INFORMISTRESS KNOWS ALL.

A Note from the Producers

King Richard and his loyal subjects welcome you to our permanent village. As you can see, we've expanded from last year, adding many new structures to the grounds. Please respect our neighbors' fields and property.

We'd also like to extend our thanks to our fine neighbors in Bristol Township, the Kenosha City Sheriff's Office and the State of Wisconsin's Department of Health and Agriculture.

The King will keep you updated with our quarterly newsletter. Please sign the guest register near the entrance; ask for the Informistress.
